My school holds a cultural festival this year. It is full of fun. There are many activities at this festival: a book show, a singing match, and a sports game.

I like the book show very much. I usually read quietly by myself. But here, I talk with other book lovers, sharing our favourite stories and ideas. I make a lot of new friends. Everyone has a great time.

I also take part in the singing match because it's a great chance to learn teamwork. Every day, after school, I practise hard with my classmates. We stay in the classroom for a long time, singing the song over and over again. As we stand in front of everyone, my heart is beating fast. But when I hear the encouraging words from my classmates, I feel less worried and show my best.

All in all, this cultural festival is not only fun but also meaningful. Through these activities, I feel closer to my school and classmates. Most importantly, it teaches me to try new things. I'm looking forward to the next one!

四、听力填空

本题你将听到一个语篇，请根据所听内容，完成下面的句子，并将获取的信息写在答题卡相应的位置上。每空一词。读两遍。

Dogs are our best friends. They are very smart because they have many neurons in their brains. Neurons help send **messages** and understand words better.

Dogs know numbers. In a fun test, scientists show dogs pictures with different numbers of balls, and the dogs can choose the picture with the most balls. And they will do better when the number is less than **four**.

Dogs know the time. You may have this experience: When you get home, your dog will **rush** to you at the first moment. In fact, he has been preparing to welcome you before you come home. He wakes up from sleep and keeps looking at the front door.

Dogs also have feelings. When they're **glad**, they jump up and down, and run around you. When they're sad, they stay on the ground and don't want to play.

Dogs bring us happiness and love, and make our lives shine **brightly**. We should always take good care of our lovely dog friends.
